NEWS RELEASE:

October 31, 2002

Contact: Jenny Fang-Stumpo, President/CEO

Point Roberts, WA - Enviro-Save staff personally want to thank the entire transit industry for putting on a great APTA EXPO in Las Vegas.

We would like to take this opportunity to introduce and educate the industry about the complete line of Enviro-Save products and how it can be the most cost-effective investment you can make for your vehicles. This is not an oil or fuel treatment. This is a one-time treatment for the life of your Bus/Train/Truck/Car.

To give you an idea of the savings you can expect we have included a Fuel Cost Reduction Table that clearly shows the financial benefits, in just fuel savings. For example, you'll see that a total investment of doing 20 buses will cost \$11,900 and will immediately begin paying you back. With the average fuel cost \$40,000 per month, your annual savings will be \$28,800.00. A 5-month return on your investment, and continued savings year-after-year guaranteed. Do you purchase products with such financial benefits that guarantee these returns on your investment? Limited time offer – includes free shipping until November 30th.

Heavy Duty – Bus Applications (6% Improvement in MPG)
